

# Save A Watt™

## Heavy Duty Programmable 7-Day Timer

Take control of your electronics and appliances. Simply connect them to the Save A Watt™ timer, and they will turn on and off based on your preferred settings. Electronics which are plugged into an outlet are drawing power even when not in use, slowly draining your wallet! Having the power to program ON/OFF times saves you money, and prolongs the life of your electronics. With a large, backlit, digital face, setting the time couldn't be easier or more intuitive. If you forget which settings you chose, it only takes a glance to find out.

### Easy To Use

### Helps save electricity & reduce your electric bill

- Combination multi-event, 7 day/24 hour programmable timer for lamps, appliances & electronics
- Easy to read, backlit LCD display
- Surge, over current, over voltage, and under voltage protection provide clean safe power
- Soft power-up eliminates harmful voltage spikes

#### Specifications:

Model:	P4470
Operating Voltage:	120 VAC
Max Voltage:	130 VAC
Max Current:	15 A
Max Power:	1875 VA
Weight:	7.4 oz.
Dimensions:	5.5"H x 3.07"W x 1.81"D
