

Emergency Light

Features Super-Bright LED

Have peace of mind knowing you'll be prepared in an unexpected power outage. When the lights go out, our Emergency Light will stay on! Thanks to its rechargeable battery, you will easily find your way to it. Use it as a night light; plug it in and enjoy a peaceful night's sleep as the built in sensor conveniently switches on and self adjusts for low lighting. Once unplugged, it doubles as a super bright flashlight. Get up to 5 hours of use with just a single charge! Never worry about replacing a bulb thanks to its long life LEDs.

- Complete with 3 independent functions
- Emergency light turns on automatically during power failures
- Nightlight automatically switches on in low light
- Built in ultra bright LED flashlight
- Flashlight lasts up to 4 hours when unplugged
- All features recharge automatically when plugged in
