

SOLmate®

Mole Repeller®

Solar Powered Pest Control

Chase unwanted burrowing rodents with the strongest and least expensive power available – The Sun. Solar powered and maintenance free, the Sol Mate® Mole Repeller uses state of the art technology to repel moles, gophers, voles, shrews and other destructive burrowing rodents. The ingenious device is environmentally friendly and eliminates the use of poisons and traps around your children and pets.

Since one full charge yields up to 7 days of trouble free power, the unit is capable of operating in the most unfavorable weather without interruption. The solar panel is embedded in a watertight housing constructed of strong ABS material and its discreet green color fits into any environment. The Sol Mate® Mole Repeller produces a sonic pulse of approx 400 Hz every 30 seconds and covers an area of approx. 7500 Square feet (1/6 acre). Pets won't be affected, but rodents find the noise irritating and eventually move to quieter surroundings.

Specifications:	
Model:	P7909
Power:	.2V DC
Battery:	AA NiCd 950 mAh
Battery Life:	up to 7 days without recharge
Frequency:	400 Hz
Duty Cycle:	30 seconds
Coverage:	7,500 sq. feet (1/6 Acre)
Dimensions:	4" X 3 1/4" X 15 1/4"
Weight:	9 oz.

Specifications subject to change without notice.

- **Up To 7,500 Sq. Feet (1/6 Acre) Coverage**
- **Attractive Unit Blends With Landscape**
- **Rodents Are Chased Away Unharmd**
- **Does Not Affect Pets**
- **User Replaceable Rechargeable Battery**
- **Water Resistant**
