

***When is negative a positive?
When it comes to clean air!***

The Refrigerator IonizAIR™ is engineered to neutralize odors and freshen the air inside your refrigerator. Its simple cordless design doesn't require filters and produces crisp fresh air using advanced ionic technology to generate negative ions and two user-selectable levels of powerful ozone. This compact purifier reduces food odors before they are absorbed by other foods and kills certain bacteria allowing food to stay fresh longer.

- Effectively cleans the air inside your refrigerator
- Green LED indicator illuminates when IonizAIR is actively producing ions and purifying the air
- Red LED illuminates when batteries need replacing
