

JUMBO Garden THERMOMETER

The “New Generation” sun powered Sol-Mate™ Jumbo Garden Thermometer makes it easy to read the temperature before you even go outside! With its state of the art technology, the solar powered Jumbo Garden Thermometer allows you to read the temperature from a distance whether the sun is out or not.

The built in, extremely bright LED light illuminates the Jumbo Thermometer at night making it easy to read the bold numbers from across your lawn or garden. No more straining your eyes to see what the temperature is like. Made of stainless steel and acrylic, the Sol-Mate™ Jumbo Garden Thermometer adds a beautiful touch to your garden, spicing up your décor and provides years of dependable service!
