SOLAR MOLE REPELLER

The Solar Mole Repeller repels unwanted burrowing rodents with the strongest and least expensive power available - the Sun. The solar-powered P7945 uses state-of-the-art technology to repel moles, gophers, voles, shrews and other destructive burrowing rodents.

This ingenious device is environmentally friendly and eliminates the use of poisons and traps around your children and pets. Since one full charge yields up to 7 days of trouble-free power, the unit is capable of operating even in unfavorable weather without interruption. The solar panel is embedded in a watertight housing with a unique mow-over design and is constructed of strong ABS material with its discreet green color fits into any environment

- Covers up to 6000 Sq. Feet
- Operates 7 Days on a full charge
- Safe around children and pets
- Water resistant ABS plastic housing
- Rodents are chased away unharmed
